

Please do not allow national FM radio stations to be lost in favor of Low Power FM stations. I listen to K-Love radio on 94.3 in Elgin, Illinois and fear we will lose it with this new service. K-Love is national but has local community messages which are important in our area. K-Love is the only full time Christian music playing station and another one called The Fish 106.7 has recently been sold so we will only have K-Love left in our area. Having a radio station that is safe for the kids to listen to (no swearing or bad jokes, only wholesome music) is important for my family and my community. Please do not let their signal be overtaken by Low Power FM in my community and across the country.
